OpenSoft Assignment 1

PROBLEM STATEMENT :

Design a responsive personal blog. This will be a simple HTML, CSS website with hyperlinks to other pages of the blogs. Also include gallery grid. Host this on github.

SKILLS REQUIRED:

HTML , CSS , Javascript (optional)

INSTRUCTIONS :

1. Each blog page should have a title, image and its content.
2. Design a common 'Header' & 'Footer' for all the pages.
3. Navigation bar should be fixed somewhere at the top or left as suitable.
4. Try to use the same CSS style sheet for all the pages.
5. Don't use software like Dreamweaver or copy the source code from the above page or any other website.
6. Don't use any CSS Frameworks

TUTORIAL LINKS:

<https://youtu.be/KJ13IX20FqU>
<https://www.w3schools.com/html/> (refer this to find the syntax)

CSS : <https://youtu.be/0afZj1G0BIE>
<https://www.youtube.com/watch?v=3T4BsrBISnI> (you are not allowed to bootstrap)
<https://www.w3schools.com/css/> (refer this to find the syntax)

JS : <https://www.w3schools.com/js/> (not necessary)

Hosting on github: <https://pages.github.com/>

P.S.:

Try to do the things simultaneously. Just don't watch the things. It will be useless to do so.
